The Texas Health Insurance Pool (the Pool) was created by the Texas legislature to offer health insurance to those Texas residents who are unable to obtain adequate health coverage due to their medical conditions or who are considered Federally Eligible Individuals as defined by the Health Insurance Portability and Accountability Act (HIPAA) of 1996.

- I. READ YOUR POLICY CAREFULLY.** This outline of coverage provides a very brief description of the important features of Your Policy. Please see the Definitions in Section IX for important terms used in this outline. This is not the insurance policy and only the actual Policy provisions will control. The Policy itself sets forth, in detail, the rights and obligations of both You and the Pool. It is, therefore, important that You **READ YOUR POLICY CAREFULLY!** Your application and Your acceptance of the Policy, if issued, constitute Your agreement to the terms and limitations of the Policy.
- II.** This Policy is designed to provide eligible individuals with coverage for major hospital, medical, and surgical expenses, incurred as the result of a covered injury or sickness. Only eligible individuals and their Dependents and Family Members are eligible for coverage by the Pool. A separate Policy will be issued to each qualifying individual.
- A. Eligibility for Coverage**
1. You are eligible for coverage by the Pool if You are and remain a legal resident of Texas and You provide evidence that You are a Federally Eligible Individual who has not experienced a Significant Break in Coverage.
 2. You are eligible for coverage by the Pool if You are under age 65, You are and remain a legal resident of Texas, and You provide evidence that You maintained Health Benefit Plan coverage under another state's qualified Health Insurance Portability and Accountability Act health program that was terminated because You no longer resided in that state, provided You submit an application for Pool coverage no later than the 63rd day after such other coverage was terminated.
 3. You are eligible for coverage by the Pool if You are under age 65 (or over the age of 65 and not enrolled in Medicare Part B), and remain a legal resident of Texas and You provide evidence that You are certified as eligible under Trade Adjustment Assistance or the Pension Benefit Guaranty Corporation (collectively, the HCTC Program).
 4. You are eligible for coverage if You are under age 65, have been for at least 30 days and remain a legal resident of Texas and a United States citizen or a permanent legal resident of the United States for at least three continuous years, and You provide evidence to the Pool's Administrator of one of the following:
 - a. A notice of rejection or refusal by an Insurance Company to issue substantially similar individual Health Benefit Plan coverage to You for health reasons;

- b. A certification from an agent or salaried representative of an Insurance Company, on the Pool's Application form, that states the agent or representative is unable to obtain substantially similar individual Health Benefit Plan coverage for You with any state-licensed Insurance Company, which the agent or representative represents, because You will be declined for coverage, as a result of Your medical condition, under the underwriting guidelines of the Insurance Company.
- c. An offer by an Insurance Company to issue substantially similar individual Health Benefit Plan coverage to You only with conditional riders, which exclude coverage for medical conditions; or
- d. You have been diagnosed with or treated for one of the following medical conditions within the past 5 years, determined as a condition for automatic eligibility by the Pool Board of Directors:

- 5. Dependents: Your Dependents are also eligible for coverage by the Pool. If the eligible individual is a child who enrolls for Pool coverage, a Family Member of the child, who resides with the child, is also eligible for coverage by the Pool. Your Dependent and a child's Family Member, as applicable, must: be under age 65; have been for at least 30 days and remain a legal resident of Texas; and be a United States citizen or a permanent legal resident of the United States for at least three continuous years.

B. Persons Not Eligible

Even if You meet an eligibility requirement above, You are not eligible for coverage by the Pool if one or more of the following applies:

- 1. You have other Health Benefit Plan coverage in effect on the date Pool coverage would otherwise be effective, except as provided in 2 below. (This does not apply to eligibility under the HCTC Program. In the case of coverage by Medicare, You are allowed to retain Medicare coverage if You otherwise qualify for the Pool. The Pool's coverage will be secondary to coverage provided by Medicare.)

2. You are eligible for or covered by Group Health Plan, Church Plan or Governmental Plan coverage, including a self-insured health benefit plan or continuation of coverage under state or federal law, unless You qualify under one of the following exceptions:
 - a. Your Group Health Plan, Church Plan or Governmental Plan coverage, continued under state or federal law, is maintained for the period of time necessary to satisfy any Preexisting Condition limitation period for Pool coverage or during any preexisting condition waiting period or other waiting period of the Group Health Plan, Church Plan or Governmental Plan coverage (does not apply to eligibility under the HCTC Program); or
 - b. Your Group Health Plan, Church Plan or Governmental Plan coverage either excludes an individual or limits coverage for an individual by conditional riders; a pre-existing condition limitation of a benefit plan does not constitute an exclusion or a conditional rider of an individual or an individual's medical condition (does not apply to eligibility under the HCTC Program);
 - c. You are a part-time employee of an employer (You usually work less than 30 hours a week for the employer), the Group Health Plan, Church Plan or Governmental Plan offered by the employer is more limited or restricted than the Pool coverage, as determined by the Pool in its sole discretion, and the employer does not pay, directly or indirectly, any portion of the cost of Your coverage under the Group Health Plan, Church Plan or Governmental Plan (a copy of the coverage document for the employer's coverage and proof that the employer pays no portion of the cost, either directly or indirectly, will be required); or
 - d. You were eligible for continuation under federal law (Title X, Consolidated Omnibus Budget Reconciliation Act of 1985, as amended (COBRA) or a comparable federal or state employee coverage continuation program) or Texas law (Subchapter F or G, Chapter 1251, or Subchapter G, Chapter 1271, Texas Insurance Code), but You either did not elect continuation of coverage during the election period or Your elected continuation of coverage has lapsed or been cancelled without reinstatement, provided, however, that if You qualify under this section, You are subject to a Pool coverage exclusion of at least 180 days from the Pool coverage effective date for any Preexisting Condition, regardless of Your prior Creditable Coverage; provided, however, that You are not subject to the 180-day exclusion period if You continued coverage for the maximum period allowed under federal law, even if You did not elect further continuation under Texas law, at the expiration of the federal continuation period.

Note: If You or Your Dependents were covered by a prior Group Health Plan, Church Plan or Governmental Plan, You and Your Dependents may be eligible for federal or state continuation. If You are eligible for and offered federal or state continuation, You may be eligible for Pool coverage pursuant to Section II B, subsection 2d. A dependent, covered under the terminating prior Group Health Plan, Church Plan or Governmental Plan is entitled to continuation, regardless of the continuation election of the employee.

3. You are covered by individual Health Benefit Plan coverage, unless You cancel or lapse such other coverage within 60 days after the effective date of Pool coverage. If such other individual Health Benefit Plan coverage limits coverage for an individual by excluding one or more medical conditions, such other coverage may be continued while the Pool coverage is in force. During any period other individual Health Benefit Plan coverage is in effect, after the effective date of Your Pool coverage, the Pool coverage will be secondary to such other coverage.
4. You have terminated coverage through the Pool within the twelve months preceding Your application for coverage by the Pool, unless You demonstrate a good faith reason for the termination (item 4 does not apply to persons eligible as Federally Defined Eligible Individuals.);
5. You are confined to a county jail or imprisoned in a state or federal prison.
6. You have premiums paid or reimbursed by or under any government sponsored program or any government agency or health care provider (does not apply to eligibility under the HCTC Program).
7. You had prior coverage by the Pool that was terminated for nonpayment of premiums within the twelve months preceding Your application for coverage by the Pool.
8. You had prior coverage by the Pool that was terminated for fraud.
9. You have received \$3,000,000 in benefits from the Pool under this Policy, including the benefits paid under any other Pool policies.

III. Preexisting Condition Limitation

A Preexisting Condition is a disease or condition: for which the existence of symptoms would cause an ordinarily prudent person to seek diagnosis, care or treatment during the six months before an Insured Person's effective date of coverage; or for which medical advice, care or treatment was recommended or received during the 6 months prior to an Insured Person's effective date of coverage. Preexisting Condition includes a preexisting pregnancy or a complication of a preexisting pregnancy, whether the complication occurs before or after the effective date of coverage. Preexisting Condition does not include genetic information, in the absence of a diagnosis of the condition related to the genetic information. During the first 12 months following Your effective date of coverage, the Policy will not pay benefits for any charges or expenses for a Preexisting Condition, except as indicated below:

1. The Preexisting Condition limitation will not apply to an Insured Person who is a Federally Defined Eligible Individual, eligible pursuant to Section II A, subsection 1.
2. The Preexisting Condition limitation will not apply if You are eligible for Pool coverage under the HCTC Program and You were continuously covered for an aggregate period of 3 months of Creditable Coverage that was in effect up to a date not more than 63 days before Your effective date under this Policy, excluding any waiting period, provided that application for coverage under this Policy is submitted to the Pool no later than 63 days following the termination of such Creditable Coverage.
3. Except for an Insured Person who is eligible under Section II B, subsection 2d (qualification under the state or federal continuation exception), the Preexisting Condition limitation will not apply to an Insured Person who: a) was continuously covered for an aggregate period of at least 12 months by Creditable Coverage, including any waiting period, that did not end more than 63 days before the Insured Person's effective date under this Policy, provided that application for coverage under this Policy for the Insured Person is submitted to the Pool no later than 63 days following the termination of such Creditable Coverage; or b) has been continuously covered, since birth, adoption or Your suit for adoption of the Insured Person, by Creditable Coverage, including any waiting period, that did not end more than 63 days before the Insured Person's effective date under this Policy, provided that application for coverage under this Policy for the Insured Person is submitted to the Pool no later than 63 days following the termination of such Creditable Coverage. In determining whether the Preexisting Condition limitation applies to You, credit will be given for the time You were covered under any prior Creditable Coverage, including any waiting period for that coverage, that was in effect at any time during the 12 months before Your effective date under this Policy.
4. An Insured Person, who is eligible under Section II B, subsection 2d (qualification under the state or federal continuation exception), will be subject to a 12-month Preexisting Condition limitation period. This limitation period will be reduced by the number of months, not to exceed 6 months, that the Insured Person was covered under any prior Creditable Coverage, including any waiting period for that coverage, in effect at any time during the 12 months before the Insured Person's effective date under this Policy.

IV. Benefits

- A. The benefits outlined in the table below show the payment percentages for Covered Expenses AFTER each Insured Person has satisfied any deductibles. You have a choice of four plans of coverage. Plan I has a \$1000 Calendar Year Deductible; Plan II has a \$2500 Calendar Year Deductible; Plan III has a \$5,000 Calendar Year Deductible; and Plan IV has a \$7,500 Calendar Year Deductible. Individuals also eligible for Medicare may enroll in Plans I or II. The Calendar Year Deductible amount selected may not be changed to a lower amount after the Policy is issued. You may request to change to a higher Calendar Year Deductible, if offered by the Pool, but only one such change will be allowed in a calendar year. The change will be effective on the first of the month following the date the Pool receives Your written request for such change or a later date, if You request it.

Covered Expenses are limited to the Allowable Amount determined by the Administrator. For a Preferred (BlueChoice) Provider, the Allowable Amount is based on the terms of the Preferred Provider network contract and the payment methodology in force on the date of service. The payment methodology used may include diagnosis-related groups (DRGs), fee schedules, package pricing, global pricing, per diems, case-rates, discounts or other payment methodologies.

For Non-Preferred Providers, the Allowable Amount for Covered Expenses will be the lesser of: (1) the Non-Preferred Provider's billed charges; or (2) the Preferred Provider Organization's (PPO) Non-Preferred Provider Allowable Amount. Except as otherwise provided in this section, the Non-Preferred Provider Allowable Amount is developed from base Medicare Participating reimbursements, adjusted by a predetermined factor established by the PPO. Such factor shall not be less than 75% and will exclude any Medicare adjustment(s) that is based on information on the claim. Notwithstanding the preceding sentence, the Non-Preferred Provider Allowable Amounts for Home Health covered services are developed from base Medicare national per visit amounts for low utilization payment adjustment (LUPA) episodes by Home Health discipline type, adjusted for duration and adjusted by a predetermined factor established by the PPO. Such factor shall be not less than 75% and shall be updated on a periodic basis. When a Medicare reimbursement rate is not available or cannot be determined based on the information submitted on the claim, the Allowable Amount for Non-Preferred Providers will represent an average contract rate in the aggregate for Preferred Providers, adjusted by a predetermined factor established by the PPO. Such factor shall be not less than 75% and shall be updated not less than every two years.

The PPO will utilize the same claim processing rules and/or edits that it utilizes in processing Preferred Provider claims for processing claims submitted by Non-Preferred Providers, which may also alter the Allowable Amount for a particular service. In the event the PPO does not have any claim edits or rules, the PPO may utilize the Medicare claim rules or edits that are used

by Medicare in processing the claims. The Allowable Amount will not include any additional payments that may be permitted under the Medicare laws or regulations that are not directly attributable to a specific claim, including, but not limited to, disproportionate share and graduate medical education payments. Any change to the Medicare reimbursement amount will be implemented by the PPO within ninety (90) days after the effective date that such change is implemented by the Centers for Medicaid and Medicare Services or its successor.

The Non-Preferred Provider Allowable Amount does not equate to the Non-Preferred Provider's billed charges and Insured Persons receiving services from a Non-Preferred Provider will be responsible for the difference between the Non-Preferred Allowable Amount and the Non-Preferred Provider's billed charges; this difference may be considerable. To find out the PPO Non-Preferred Provider Allowable Amount for a particular service, Insured Persons may call customer service at the number shown on the identification card.

For multiple surgeries, the Allowable Amount for all surgical procedures performed on the same patient on the same day will be the amount for the single procedure with the highest Allowable Amount plus a determined percentage of the Allowable Amount for each of the other covered procedures performed.

For procedures, services, or supplies provided to Medicare recipients, the Allowable Amount will not exceed Medicare's limiting charge.

IMPORTANT: All claim payments are based on Allowable Amounts. Preferred Providers, contracted with the Administrator, must accept these Allowable Amounts as payment in full, subject to the deductibles and Preferred Provider Coinsurance Percentage. If an Insured Person uses a Non-Preferred Provider, the Insured Person will be responsible for charges over the Allowable Amount, in addition to the deductibles and the Insured Person's share of the Non-Preferred Provider Coinsurance Percentage. ParPlan Providers have agreed to accept the Allowable Amount as payment in full, subject to the Insured Person's payment of the deductibles and the Insured Person's share of the Non-Preferred Provider Coinsurance Percentage.

Even if You consult a Preferred Provider, ask about any of the providers rendering care to You. For example, if You are scheduled for surgery, ensure that Your Preferred Provider surgeon will be using a Preferred Provider facility for Your procedure and a Preferred Provider for Your anesthesia, radiology or pathology services.

Services You receive during an inpatient or outpatient admission may include care rendered by hospital-based, ancillary Non-Preferred Providers, such as an anesthesiologist, pathologist, radiologist, neonatologist or emergency medicine physician. To confirm if Your Preferred Provider facility includes ancillary Preferred Providers, go to "Provider Finder" at <http://www.bcbstx.com/onlineDirectory/ppo.htm> and, in the Custom Search box, click on the link at the "Important Note" to verify information for Your facility.

After each Insured Person has paid the applicable deductibles, the Policy will pay the amount of Covered Expenses in excess of the applicable coinsurance amount. After You have paid the applicable Coinsurance Maximum for each calendar year, the Policy will pay 100% of Covered Expenses for the remainder of the calendar year. In no event will the Policy pay more than the Lifetime Maximum for each Insured Person. Also, the Calendar Year Deductible, the emergency care deductible, physician office visit copayments and charges for outpatient prescription drugs, including charges applied to the Prescription Drug Deductible or Copayments, do not count toward the Coinsurance Maximums.

The Calendar Year Deductible and Coinsurance Maximums are accumulated on a calendar year basis.

Covered Expenses are charges for services and supplies, which are covered by the Policy, that are not in excess of Allowable Amounts and that are determined by the Administrator to be Medically Necessary for treatment of an illness or injury.

Lifetime Maximum or Lifetime Maximum Amount means the maximum amount of covered expenses payable by the Pool under this Policy and any other Pool policy for each Insured Person. The Lifetime Maximum Amount is \$3,000,000.

B. Preauthorization, Case Management and Chronic Condition Disease Management Provisions

The special features listed below allow You access to the medical care You need, while they reduce the costs to You and the Pool.

1. **Preauthorization:** Information is reviewed by medical personnel to authorize specific services. Preauthorization is required for the following medical services: inpatient hospital admissions; skilled nursing facility admissions; home health care visits and services; home infusion therapy; hospice care on an inpatient or outpatient basis; durable medical equipment over \$2,000, except durable medical equipment for treatment of diabetes; and organ and tissue transplants. It is necessary to contact the Administrator prior to obtaining such services. **If the service is not preauthorized, the benefit for the service will be reduced by 50%.** In addition, certain benefits administered by the Pharmacy Manager are subject to Prior Authorization. Please see the Prescription Drug benefit description for details.
2. **Case management:** The case manager will work with You and Your physician to determine the appropriate level of care You need. As a condition of coverage by the Pool, the Insured Person must cooperate with the involvement of the Case Manager. A Case Manager may contact the Insured Person and the treating Physician whenever the Insured Person is admitted to a Hospital or other facility as an inpatient or whenever the treating Physician makes a request for certain courses of treatment. If the Insured Person refuses to fully cooperate with and allow the participation of the Case Manager in his or her care or treatment, services may not be covered by the Pool.
3. **Chronic condition disease management:** The Pool provides certain chronic condition disease management programs. If You have a diagnosis of or are being treated for a condition for which a chronic condition disease management program is provided, You will be contacted to participate in the program. Participation in the chronic condition disease management program is mandatory. If You refuse to participate, a written notice will be sent to Your last known address, notifying You that unless and until You become a participant in and compliant with the applicable program, Pool coverage may not be provided for services and treatment associated with that particular condition. The Pool will continue to provide benefits for covered services for other conditions.

C. BlueChoice® Network

The Pool has selected the BlueChoice® Network as the Pool's Preferred Provider Organization (PPO). Although You may choose any medical provider or hospital, You will save money by using providers from the BlueChoice® Network.

If You choose a BlueChoice provider, the Policy will pay a greater coinsurance rate and the BlueChoice provider's rate will be based on the Allowable Amount for that provider's service. If You choose a medical provider or hospital not participating in the BlueChoice® Network, the Policy will pay a lower coinsurance rate for covered expenses. Also, Covered Expenses of Non-Preferred Providers, paid by the Policy, will be based on the Allowable Amount, determined by the Administrator, which may be less than the provider's billed rate. The provider may bill You for the difference between the charges paid by the Policy and the provider's billed rate (balance billing). If this occurs, You will have a greater out of pocket expense. If You choose a ParPlan Provider, the Policy will pay the Non-Preferred Provider level of benefits, but the ParPlan Provider has agreed to: file Your claims; not bill You for the difference between the ParPlan Provider's charge and the Allowable Amount covered under this Policy for any treatment or services; and not bill You for treatment or services that are not Medically Necessary, as determined by the Administrator.

There are other advantages to using BlueChoice providers. They will handle the initial paperwork so You do not have to file claims. They may also preauthorize benefits for You, although it is ultimately Your responsibility to ensure that Your services have been authorized by the Pool.

A list of Preferred Providers in Your area is contained in the Preferred Provider Directory that was provided to You. You may call the Administrator's preauthorization referral department at its toll free number, 1-888-398-3927, to obtain the name of a Preferred Provider outside Your area, if needed. Any changes to the list of Preferred Providers will be made available to You not less than annually. You may call the Administrator during regular business hours to receive a current list of Preferred Providers. The list of Preferred Providers changes from time to time so it is important for You to verify the network status of Your providers. You can do this by confirming with Your provider that the provider is a member of the network or by calling the Administrator or checking the list of current Preferred Providers found on the Pool's web site (www.txhealthpool.org).

If there are no BlueChoice providers available to You, You must contact the Administrator's preauthorization referral department at its toll free number. Generally, a BlueChoice provider will be considered to be unavailable to You if You reside more than 30 miles from a BlueChoice provider. If there are no BlueChoice providers available to You and You receive approval from the Administrator before obtaining services from a Non-Preferred Provider, Covered Expenses for treatment or services by the Non-Preferred Provider will be paid at the Preferred Provider coinsurance level. If You fail to obtain approval from the Administrator prior to obtaining the services of a Non-Preferred Provider, Covered Expenses for treatment or services by that Non-Preferred Provider will be paid at the Non-Preferred Provider Coinsurance Percentage, regardless of the availability to You of a Preferred Provider.

When an Insured Person receives covered Emergency Care Services from a Non-Preferred Provider, those services will be paid as if they were received from a Preferred Provider. However, once the Insured Person can be safely transferred to a Preferred

Provider, the Insured Person must be transferred to a Preferred Provider in order to continue receiving the Preferred Provider level of benefits. If the Insured Person chooses not to transfer, Policy benefits will be payable at the lower Non-Preferred Provider level.

IMPORTANT: All claim payments are based on Allowable Amounts. Preferred Providers, contracted with the Administrator, must accept these Allowable Amounts as payment in full, subject to the deductibles and Preferred Provider Coinsurance Percentage. If an Insured Person uses a Non-Preferred Provider, the Insured Person will be responsible for charges over the Allowable Amount, in addition to the deductibles and the Insured Person's share of the Non-Preferred Provider Coinsurance Percentage. ParPlan Providers have agreed to accept the Allowable Amount as payment in full, subject to the Insured Person's payment of the deductibles and the Insured Person's share of the Non-Preferred Provider Coinsurance Percentage.

Even if You consult a Preferred Provider, ask about any of the providers rendering care to You. For example, if You are scheduled for surgery, ensure that Your Preferred Provider surgeon will be using a Preferred Provider facility for Your procedure and a Preferred Provider for Your anesthesia, radiology or pathology services

Services You receive during an inpatient or outpatient admission may include care rendered by hospital-based, ancillary Non-Preferred Providers, such as an anesthesiologist, pathologist, radiologist, neonatologist or emergency medicine physician. To confirm if Your Preferred Provider facility includes ancillary Preferred Providers, go to "Provider Finder" at <http://www.bcbstx.com/onlineDirectory/ppo.htm> and, in the Custom Search box, click on the link at the "Important Note" to verify information for Your facility.

If an Insured Person's Preferred Provider's arrangement with the Network, chosen by the Pool for this Policy, terminates and, at the time of such termination, the Insured Person has special circumstances, benefits for Covered Expenses received from that provider will be paid as if the Covered Expenses were received from a Preferred Provider until: in the case of an Insured Person who has been diagnosed with a terminal illness, the end of nine months after the effective date of termination; in the case of an Insured Person who, at the time of termination, is past the 24th week of pregnancy, delivery of the child, immediate post-partum care and the follow-up checkup within the first six weeks after the delivery; or in all other special circumstances, the end of 90 days after the date of termination.

"Special circumstances" means a condition such that the treating Physician reasonably believes that discontinuing care by the treating Physician could cause harm to the patient. Special circumstances must be identified by the treating Physician who must: make a request to the Administrator that the Insured Person be permitted to continue treatment under the Physician's care; and agree not to seek payment from the Insured Person for any amounts in excess of the Preferred Provider rate for the treatment or services rendered.

D. BlueCard Program

The BlueCard Program provides access to Preferred Providers of other Blue Cross and/or Blue Shield Plans outside Texas. If You incur expenses outside Texas through the BlueCard Program, You must pay the Preferred Provider Coinsurance amount, after satisfaction of the Deductible. Covered Expenses for a BlueCard program provider will be calculated using the lesser of the billed charges of the BlueCard Program provider or the negotiated rate the Administrator pays the local Blue Cross and/or Blue Shield Plan.

E. Pharmacy Benefits

This benefit does not apply to an Insured Person eligible for Medicare. The Pool offers a statewide network of pharmacies, a Mail Order program and a Specialty Medications program through Medco Health Solutions, Inc., the Pharmacy Manager. To ensure proper dosage and use, some prescription drugs may be subject to a quantity limit per prescription and/or per 30-day supply. Certain drugs will require prior authorization by the Pharmacy Manager before You can obtain a covered prescription drug at a network pharmacy. A list of the drugs, including growth hormone drugs and rheumatoid arthritis agents, that require prior authorization can be obtained on the Pool web site, www.txhealthpool.org, or by calling the Pharmacy Manager's toll free number shown on the first page of this Outline of Coverage. Compounded drugs and branded generic drugs will be covered as brand name drugs. The copayment You will pay for a compounded drug will be based on the classification of the highest cost ingredient in the compounded drug.

1. Prescription Drug Deductible

Benefits for outpatient prescription drugs are subject to a calendar year deductible of \$200 for Plans I, II and III and of \$500 for Plan IV. Charges applied to this deductible or to the applicable drug Copayments do not apply to the Calendar Year Deductible or to the Coinsurance Maximum amount.

2. Pharmacy Network Benefits

When Your prescriptions are filled at a network pharmacy, for up to a 30-day supply, You will pay \$10 for generic drugs, or, if a generic drug is not available, \$25 for formulary brand name drugs or the greater of \$40 or 50% of the drug cost for non-formulary brand name drugs. If a generic drug is available and You receive a brand name drug, You will pay the applicable brand name drug Copayment plus the difference in cost between the generic drug and the brand name drug. For Specialty Medications, You will pay \$100 for each 30-day prescription.

The Pool also offers a Mail Order program through the Pharmacy Manager. When Your prescriptions are filled through the Mail Order program, for up to a 90-day supply, You will pay \$25 for generic drugs, or if a generic drug is not available, \$60 for formulary brand name drugs or the greater of \$100 or 50% of the drug cost for non-formulary brand name drugs.
