Texas Health Insurance Pool Premium Rate Table Instructions

Your monthly premium rate is determined by your deductible plan, age, gender, tobacco user status, and zip code.

Policy benefits for covered medical expenses are reduced by amounts payable by Medicare.

1. Select the deductible plan you want: Plan I (\$1,000 deductible) or Plan II (\$2,500 deductible).

Carefully review the Outline of Coverage before selecting your deductible plan. The deductible amount selected may not be changed to a lower amount after the policy is issued.

2. The rate tables are separated into tobacco user and non-tobacco user categories. You may choose the non-tobacco user category only if you have not used any tobacco products in the last 12 months.
3. Look at the table below for your zip code. The rate area is determined by the first three numbers of your zip code.
4. Find your rate area within the appropriate tobacco user status table. Next, find the age bracket that contains your age as of your anticipated coverage date. (For example, age 42 would be found in the "40-44" age bracket.)
5. Locate your monthly premium rate for the deductible plan you have selected. For example, a 42 year-old male non-tobacco user whose zip code begins with 754 would be located in Area 3. His monthly premium would be \$509 for Plan I or \$341 for Plan II.
